

BALLY

To Whom It May Concern

I am writing this letter to you as a recommendation for the services provided by Asian Trekking Pvt. Ltd. We have partnered with Asian Trekking to execute Bally's Peak Outlook campaign – preserving the Worlds Mountains, starting with a cleanup initiative on Mt. Everest. Asian Trekking executed the clean up and arranged the logistics and manpower to support the campaign, including providing services to our special guests and Bally representatives during their Everest Base Camp visit to oversee the initiative first hand.

Our guests and Bally representatives were impressed by the outstanding care and bespoke services provided by Asian Trekking, especially the staff who served the needs and wishes of our guests enthusiastically, as well as providing valuable insights and recommendations as long time experts in the field.

I would like you to consider Asian Trekking Pvt. Ltd for your travel needs in Nepal. We have had a great experience with them and can happily recommend their services.

Sincerely,

Monica Cuellar Mauri, Global Communications Director
